**Established** 1992  
**Staff** 5  
**Volunteers** 100  
**Org Members**  
**Ind Members** 42

**Description**

We are a National filial of International Union for Quaternary Research (INQUA). It is a Scientific Association, which unifies the researchers, professors, students and volunteers interested in environmental and climate investigations of recent climate changes and natural hazards frequency in the Black Sea region.

**Activities**

The Association participated in preparing of the first National Report on Climate Change and implemented a series of environmental protection projects supported by World Bank (Moldova Office), Regional Environmental Center, TACIS and WWF.  
 We published 4 monographs and more than 40 papers, as well as participate in the works of different conferences organised by Commissions on Palaeoclimate and Stratigraphy of INQUA (International Union for Quaternary Research)
